- Any doubts or question contact: deportes@educartecostarica.com

It is very important to inform your child's tutor teacher of any extracurricular class registration so that each teacher knows that your child will stay after school.

The extra-class teacher is in charge of his/her students until the end of class and he /she is responsible for handing them over to the parents or authorized person. Please be on time!

Responsibility of parents:

1. Complete the registration form to the desired classes
2. Cancel the monthly payment by deposit or card during the first 10 days of the month
3. Be punctual in picking up your kid at the end of the class (after two delays the student will be out from the extra class)
4. Remember to contact the homeroom teacher to inform him/her when the student stays after class
